

## *The Bold North Indian Table*

North Indian cuisine has always understood that a meal is not merely sustenance — it is an event.

Our North Indian table arrives with all the ceremony the cuisine deserves: *saffron-touched gravies* simmered over hours, *proteins* kissed by the tandoor's heat, and *spice profiles* assembled with a jeweller's precision.

Rich, aromatic, and deeply celebratory — this is food that is bold in character, patient in craft, and unforgettable in every course.
